Subject: Determination of Completeness
Central Carolina Tire Monofill
Harnett County, Permit # 4304-TIRELF-1992, Document ID 20897

Mr. Womble:

The Division of Waste Management, Solid Waste Section (Section) has completed a review of the document titled *Application for 10-Year Permit for Sanitary Landfill, Phase 3A and 3B Area* (DIN 20896). The document was submitted on your behalf by Garrett & Moore and was received in the Asheville Regional Office on April 23, 2014.

The submittal has been reviewed for completeness in accordance with General Statute 130A-295.8(e). A determination of completeness means that the application includes all required components but does not mean the required components provide all of the information that is required for the Section to make a decision on the application. The permitting activity fee has been paid, and all the components required by 15A NCAC 13B.1108 have been submitted, so the application is deemed **complete**.

No additional information is required for completion of the permitting activity. As a result, the amended Permit to Operate will follow under separate cover in the near future.

If you should have any questions regarding this matter please contact me at (828) 296-4703, or by email at allen.gaither@ncdenr.gov.

Sincerely,

Allen Gaither
Environmental Engineer
