Subject: Erosion and Sedimentation Control Permit Request
Blue Ridge Paper Products Inc, dba Evergreen Packaging
Landfill Number 6D-North, Permit #44-06

RECEIVED

OCT - 7 2013

SOLID WASTE SECTION
ASHEVILLE REGIONAL OFFICE

Dear Mr. Pruitt:

Blue Ridge Paper Products, Inc. (Blue Ridge) has submitted a Permit to Construct application to the North Carolina Department of Environment and Natural Resources (NCDENR) for Landfill No. 6, Area D-South. As part of this submission, it is required that an approved Erosion and Sediment Control Permit be obtained from the governing body having jurisdiction, which for Blue Ridge is the Haywood County Erosion Control Program. A copy of the report entitled *Erosion and Sediment Control Plan for Expansion of Landfill No. 6 Area D North, Canton, North Carolina* was provided to Jennifer Bradish on August 21, 2013, during the Area 6D North review meeting. The Erosion and Sediment Control Plan is included in that document as Attachment 4.

Attached herein are fully executed documents required by the Haywood County Erosion & Sediment Control Ordinance as follows:

- Financial Responsibility and Ownership Form
- Affidavit for Land-Disturbing Activities in Haywood County, NC
- Land Disturbing Surety Bond

The land area encompassing the new construction request primarily consists of acreage previously permitted by Haywood County Erosion Control in 1997 and 2009. The area was originally permitted in 1997 as Landfill 6, Borrow Area West. An additional 5.22 (6.0)

fresh by design™

acres was permitted in conjunction with the Area 6D-South project in June 2009. The 2013 proposed construction footprint includes 2.7 acres outside of the 2009 permitted area. It is my understanding that the fee and financial assurance bond will be based upon the additional 2.7 (3.0) acres. I have included a drawing of the area in question produced by Sevee & Maher Engineers, in support of the determination of the additional 2.7 acres in the proposed construction area.

Given the above, attached is check #3812014046 for \$1,050.00 in payment of the application fee. Also attached is check #3812014047 for \$7,500.00 to be held as a cash bond for the duration of the construction project.

Thank you again for your time and consideration regarding this project. Please let me know if you or any of your staff would like to visit the site, or if you have further questions at this time.

James A. Giaque

FINANCIAL RESPONSIBILITY AND OWNERSHIP FORM
HAYWOOD COUNTY CODE OF ORDINANCES, CHAPTER 154 EROSION AND SEDIMENT CONTROL; and,
CHAPTER 158, SLOPE ORDINANCE

No person may initiate a land-disturbing activity on one-half or more acres as covered by Chapter 154 before this form and an acceptable erosion and sedimentation control plan have been completed and approved by the Haywood County Erosion Control Program. (Please type or print, and if question is not applicable, place N/A in the blank.) This form also addresses artificial (i.e. cut or fill) slope construction and repair as covered by Chapter 158. No Certificate of Occupancy will be issued and no final subdivision plat approved until the Erosion Control Office has received a completed affidavit from the person financially responsible that the project site is in compliance with the Haywood County Slope Ordinance.

SECTION A.

1. Project Name: Blue Ridge Paper Products, Inc., dba Evergreen Packaging
2. Property Identification Number or Deed Book/Page: 8647-76-6665
3. Address of land-disturbing activity: 1155 Incinerator Road
4. Starting date for land-disturbing activity: Fall 2013 (est)
5. Purpose of this activity: Residential requiring a Certificate of Occupancy, Minor Subdivision, Major Subdivision,
 Commercial or Industrial requiring a Certificate of Occupancy, Other: Permit to Construct
6. Total acreage disturbed or uncovered (including off-site borrow or waste areas): 2.7 acres added to previously permitted area.
7. Fee enclosed: \$ 1,050, Bond amount: \$ 7,500, Type of Security: Land Disturbing Surety Bond
8. Has an erosion and sedimentation control plan been filed? Yes
9. I will notify Haywood County Erosion Control within 30 days of when grading equipment is moved off the site.
10. Person to contact should sediment control or slope construction issues arise during land-disturbing activity:
Name: Jim Giaouque Telephone Numbers: 828-646-2028
11. Landowner of Record (List all owners):
Name(s): Blue Ridge Paper Products, Inc., dba Evergreen Packaging
Mailing Address: 175 Main Street, P.O. Box 4000, Canton, NC 28716
Telephone Numbers: 828-646-2028
Fax Number: 828-646-6892, E-mail: jim.giaouque@everpack.com
12. Person or firm financially responsible for this land-disturbing activity and compliance with the Slope Ordinance:
Name: Same
Mailing Address: _____
Telephone Numbers: _____
Fax Number: _____, E-mail: _____
13. My land-disturbing operator/contractor information is:
Name: TBD
Mailing Address: _____
Telephone Numbers: _____

DAJ

14. My Building Contractor information is:

Name: TBD

Mailing Address: _____

Telephone Numbers: _____

15. If the Financially Responsible Person is not a resident of North Carolina, give name and street address of a North Carolina Agent:

Name: NA

Mailing Address: _____

Street Address: _____

Telephone Numbers: _____

Fax Number: _____, E-mail: _____

16. If the Financially Responsible Person is a partnership or other person engaging in business under an assumed name, attach a copy of the certificate of assumed name. If the Financially Responsible Person is a corporation, give name and street address of the Registered Agent.

Name: NA

Mailing Address: _____

Street Address: _____

Telephone Numbers: _____

Fax Number: _____, E-mail: _____

SECTION B.

ARTIFICIAL SLOPE REQUIREMENTS FOR ALL PROJECTS:

- 1- Yes, No → I understand that my project must comply with **Chapter 158: Slope Ordinance** of the **Haywood County Code of Ordinances** before a Certificate of Occupancy can be issued.
- 2- Yes, No → I understand that all fill slopes must be compacted in accordance with the Standard Operating Procedure for compaction. (You may request a copy of the Standard Operating Procedures or view them on the Erosion Control's webpage)
- 3- Yes, No → Does this project have any cut slopes steeper than 1:1 (horizontal: vertical) or fill slopes steeper than 1.5:1 (h:v) and greater than fifteen feet (15') in vertical height? (**Slope Plan is required, contact Erosion Control Office**)
- 4- Yes, No → Do all proposed artificial slopes meet the setback requirements in accordance with the Standard Operating Procedures? ******(The toe of a constructed fill slope and the top of a constructed cut slope cannot be within five feet (5') of a property line.
- 5- Yes, No → Will any artificial slope be taller than 40 feet (vertical) and steeper than 1:1 (cut) or 1.5:1 (fill)? (**Variance is required, contact the Erosion Control Office**)
- 6- Yes, No → I will provide stabilized ditches or other methods to prevent uncontrolled stormwater runoff from going over artificially constructed or repaired slopes.
- 7- Yes, No → Will an offsite borrow source be used for fill slope construction or repair? If yes, provide the location(s) of the source (PIN, DB/PG, or address)

SECTION C. ARTIFICIAL SLOPE REQUIREMENTS FOR MINOR AND MAJOR SUBDIVISIONS ONLY: NA

- 1- Yes, No → My development activity is a **MINOR SUBDIVISION** or a **MAJOR SUBDIVISION**. I understand that subdivision plats will not be approved or recorded until all subdivision roads are completed and field verified for compliance with the Slope Ordinance.
- 2- Yes, No → I understand that I must provide the Erosion Control Office with **Standard Proctor** test data in accordance with §158.10(A) of the Slope Ordinance on all proposed fill soils forming artificial slopes.
- 3- Yes, No → I understand I must provide the Erosion Control Office with copies of the final engineering certifications that are provided to the State regarding the construction and testing of public **WATER** and **SEWER** lines anytime said utility lines are located in a fill slope. I further understand that the person financially responsible for the slope work shall provide copies of the final engineering certifications within 30 calendar days of completion of the work.

THE FOLLOWING NOTARIZED STATEMENT MUST BE COMPLETED FOR ANY AND ALL SECTIONS OF THIS DOCUMENT.
(This form must be signed by the Financially Responsible Person, if an individual, or by his or her attorney-in-fact. If the Financially Responsible Person is not an individual, this form must be signed by an officer, director, partner or registered agent with the authority to execute instruments for the Financially Responsible Person.)

I agree to conduct all land-disturbing activity on the subject property in accordance with the information provided herein and the Haywood County Code of Ordinances. I understand and acknowledge that Haywood County assumes no liability for the design or adequacy of this plan or the work resultant from the approval of this plan, and I now and hereafter hold harmless and indemnify Haywood County for all grading activities for which I am responsible. I have received, if requested, a copy of the applicable Haywood County ordinances. I agree to provide corrected information should there be any change in the information provided herein. All information I have provided in this form of Financial Responsibility and Ownership is true and correct to the best of my knowledge. I understand that failure to comply with the Erosion and Sediment Control Ordinance or the Slope Ordinance may result in the assessment of civil penalties.

AFFIDAVIT FOR LAND-DISTURBING ACTIVITIES IN HAYWOOD COUNTY, N. C.

(Statement of Intent and Commitment to Perform by the Person Financially Responsible
and/or by the Land Owner)

PROJECT: Blue Ridge Paper Products, Inc, dba Evergreen Packaging, Landfill Number 6, Area D North
PIN # 8647-76-6665

LOCATION: 1155 Incinerator Road, Canton, NC 28716

I now state under oath that I will perform all land-disturbing activity on this project, for which I am responsible or upon land I own, in accordance with the provisions of Chapter 154 of the Haywood County Code of Ordinances **and** within the obligations set forth in this performance obligation **and** in my erosion and sediment control plan as approved by Haywood County. I acknowledge that Haywood County's Erosion and Sediment Control Ordinance is based on rules and regulations promulgated by the State of North Carolina in the *Sedimentation Pollution Control Act of 1973 (as amended)* and in the North Carolina Administrative Code.

▶ I have received a copy of the Haywood County Erosion and Sediment Control Ordinance.

▶ I will comply with the provisions for establishing temporary and permanent ground covers as per the Ordinance. Some requirements are as follows: ***The angle for graded slopes and fills shall be no greater than the angle which can be retained by vegetative cover or other adequate erosion control devices or structures. In any event, slopes left exposed will, within 21 calendar days of completion of any phase of grading, be planted or otherwise provided with a temporary or permanent ground cover, device, or structure sufficient to restrain erosion.***

a) If any graded slopes or fills on this project are to be left idle for a period of twenty one (21) calendar days, I agree to seed and mulch these disturbed areas by the seventh (7th) calendar day. I realize that this will give disturbed areas two weeks for the grass to grow. If these disturbed areas are not adequately protected by day twenty one (21) or if any graded slopes or fills on this project are not planned for vegetative cover, I will provide other adequate ground covers on all the applicable disturbed areas by the end of day 21. I realize that these types of ground covers include gravel, adequate mulch, rip rap with filter cloth, sod or other measures that will meet the requirements of the Ordinance to restrain erosion.

b) If my construction is in a season of the year considered outside the window for successfully establishing vegetative ground cover (when frost normally occurs), I will comply by using other acceptable applications of material such as adequate mulch to meet the requirements of the ground cover requirements.

c) I understand that open channels such as ditches may be difficult to stabilize with grass ground cover. I may meet this ground cover obligation by using either check dams to help grass establish, sod in the ditch, or hardened liners such as rock rip rap or fabric liners. I will construct adequately sized ditches, and I will stabilize them as per the requirements of the Ordinance.

▶ I will install all reasonable measures to protect all public and private properties from any sediment damage as a result of my land disturbing activity. I will keep my sediment on my property by using a combination of the following acceptable erosion and sediment control practices: gravel construction entrance, trenched, tamped and adequately braced silt fence, silt pits, sediment traps, diversion ditches, berms, measures to keep sediment out of culverts.

▶ I or my designate(s) will inspect all erosion and sediment control measures at least once every seven (7) calendar days and after any rain event producing 0.5 inches or more precipitation during any 24-hour period. I am the person responsible for cleanout and maintenance of erosion and sediment control measures on my project. I know that maintenance is my responsibility even though I may hire someone else to perform the work. I will maintain the measures on my property or project and keep them functional and adequate.

▶ I am now informed that the average yearly rainfall for Haywood County is 50" to 60" of rain (distributed from north to south). I am now informed that the amount of rainfall from the 24-hour, one-year storm is 3" to 3.5" of rain, and the 24-hour, ten-year storm produces from 5" to 6" of rainfall (distributed from north to south).

► I am aware of the rules and regulations regarding buffer zone requirements as per the Ordinance; and some are as follows (the Ordinance contains the complete listing of requirements):

- a) No land-disturbing activity during periods of construction or improvement to land shall be permitted in proximity to a lake or natural watercourse unless a buffer zone is provided along the margin of the watercourse of sufficient width to confine visible siltation within the 25% of the buffer zone nearest the land-disturbing activity.
- b) Waters that have been classified as trout waters by the Environmental Management Commission shall have an undisturbed buffer zone 25-feet wide or of sufficient width to confine visible siltation within the 25% of the buffer zone nearest the land-disturbing activity, whichever is greater. Provided, however, that the Director may approve plans which include land-disturbing activity along trout waters when the duration of the disturbance would be temporary and the extent of the disturbance would be minimal. This subdivision shall not apply to a land-disturbing activity in connection with the construction of facilities to be located on, over, or under a lake or natural watercourse.
- c) Unless otherwise provided, the width of a buffer zone is measured from the edge of the water to the nearest edge of the disturbed area with the 25% of the strip nearer the land-disturbing activity containing natural or artificial means of confining visible siltation.
- d) The 25-foot minimum width for an undisturbed buffer zone adjacent to designated trout waters shall be measured horizontally from the top of the bank.
- e) Where a temporary and minimal disturbance is permitted as an exception by G.S. §113A-57(1) land-disturbing activities in the buffer zone adjacent to designated trout waters shall be limited to a maximum of 10% of the total length of the buffer zone within the tract to be distributed such that there is not more than 100 linear feet of disturbance in each 1000 linear feet of buffer zone. Larger areas may be disturbed with the written approval of the Director.

► As per §154.60(C)(6)(a) of the Erosion Control Ordinance, the specific time frame I am requesting for this land-disturbing activity is (from the commencement of land-disturbing activity to the point of final stabilization):

10 / 01 / 2013 12 / 31 / 2014 15 Months
 ↑ Commencement date ↑ ↑ Ending Date ↑ ↑ Amount of time requested ↑

► I agree to comply with the provisions of my erosion and sediment control plan as approved or modified by Haywood County, the above statements and the rules, regulations, and requirements of Chapter 154 of the Haywood County Code of Ordinances: Erosion and Sediment Control. County of Haywood

KNOW ALL MEN BY THESE PRESENTS THAT WE, Blue Ridge Paper Products Inc, dba evergreen Packaging,
(Principal Name)

as Principal and NA - Cash, as Surety, are held and firmly bound unto the County
(Surety Name)
of Haywood, in the sum of (\$7,500.00) _____ to the
payment where we bond ourselves our heirs, executors, administrators, and assigns, firmly by these present.

WHEREAS, the above bounden Principal has applied for an **EROSION CONTROL PLAN APPROVAL
AND LAND-DISTURBING PERMIT**, in Haywood County, North Carolina.

The condition of this obligation is such that:

WHEREAS, the said Principal is or desires to be engaged in a **LAND-DISTURBING ACTIVITY** within Haywood County on a parcel or tract of land which is known in the official registry of the Haywood County Land Records Office by the PROPERTY IDENTIFICATION NUMBER of: 8647-76-6665, and said parcel or tract may also be found in DEED BOOK: 472 and PAGE #: 1073 in the Haywood County Register of Deeds Office, and

WHEREAS, there have been promulgated by Haywood County, certain rules and regulations for the conduct of such land-disturbing activities as proposed by the Principal, and

WHEREAS, specific to the conditions creating the requirement of this Surety Bond, the said land-disturbing activity is subject to §154.7 of Chapter 154 of the Haywood County Code of Ordinances: Erosion and Sediment Control, and

NOW THEREFORE, if the said Principal shall well and truly perform the land-disturbing activity from the time of undertaking to completion within the guidelines set forth in the approved erosion and sediment control plan for the project **and** Chapter 154 of Haywood County's Code of Ordinances (Erosion and Sediment Control), Haywood County will make no demand to redeem the bond. However, the said Principal and the said Surety shall well and truly pay to Haywood County all applicable surety bond funds stated herein if the land-disturbing activity in is non-compliance with said Ordinance for 90 working days after a Notice of Violation is received by the Principal.

It is expressly understood that this bond may be canceled by the Surety only at the expiration of thirty (30) calendar days from the date upon which the Surety shall have filed with the Haywood County Erosion Control Program **and** the Haywood County Finance Director written notice to so cancel. This provision however, shall not operate to relieve, release or discharge the Surety from any liability, civil penalties or criminal penalties already accrued or which shall accrue before the expiration of the thirty (30) day period. It is expressly understood that if the bond lapses or expires prematurely, the Land-Disturbing Permit will be revoked, and an application for a new Land-Disturbing Permit must then be submitted. It is expressly understood that upon forfeiture of applicable surety, the Principal does hereby grant to Haywood County the right to enter said property at reasonable times and perform work upon said property to the value extent of the bond and only for the purpose of installation of sufficient erosion and sediment control measures and devices on the site in accordance with Chapter 154 of the Haywood County Code of Ordinances: Erosion and Sediment Control. It is expressly understood that forfeited surety shall be also used to establish erosion control structures or ground covers in accordance with an approved sediment control plan.

This is the 11 day of OCTOBER, 2013.

INSTRUCTIONS FOR COMPLETING LAND-DISTURBING ACTIVITY
SURETY BONDS

INFORMATION

In compliance with the Haywood County Erosion and Sediment Control Ordinance, application for a permit to disturb five or more acres shall require the posting of a surety bond with the County in the form of an escrow account, an account guaranteed by an established surety company or other instruments satisfactory to the County Attorney.

CASH BONDS can only be accepted with a certified check or money order and are not interest bearing.

FAXED or **PHOTOCOPIED** bonds will be accepted as evidence that the bond has been issued if the form is completed, signed and sealed. However, the original must be received by the County before the Land-Disturbing Permit can be issued.

INSTRUCTIONS

1. **THE BOND MUST BE EXECUTED ON HAYWOOD COUNTY'S BOND FORM** and completed by a Surety company or Cash Principal. Bonds may only be cancelled by a written 30-day notice to the County by the Principal or the Surety. However, if the bond is canceled before the site is issued a Certificate of Compliance by the County, the Land-Disturbing Permit may be revoked.
2. **IF THE PRINCIPAL IS A PARTNERSHIP** or other person engaging in business under an assumed name, a copy of the "Certificate of Assumed Name" must be attached to the bond form. At least one partner or person must sign their full legal name as the legal Partnership or Business Representative as Principle.
3. **IF THE PRINCIPAL IS A CORPORATION**, a Registered Agent must also sign their full legal name as Principal.
4. **MAILING ADDRESSES** including zip codes, office phone numbers, fax numbers and cell numbers must be included for Principal and Surety.
5. **LIST ALL STATE LICENSE NUMBERS** or professional registration numbers held by the Principal.
6. **BOND NUMBER** is to be assigned by the Surety company. If the bond number has not been assigned, please send rider or endorsement listing the assigned number immediately.
7. **BOND AMOUNT** will be determined by the County by multiplying the number of acres to be disturbed by an amount within the limits specified in the Ordinance. The required bond amount per acre will be fairly determined by The Erosion Control Office and will generally be based on difficulty of site stabilization upon forfeiture of applicable surety.
8. **SIGNATURES** of Principal and Attorney In Fact (Surety) **ARE REQUIRED.**
9. **INSURANCE COMPANY'S CORPORATE SEAL** must be affixed on bond. **A Notary seal or Principal's corporate seal are not acceptable.**
