Subject: Approval – Revised Closure/Post-closure Plan
White Oak MSW Landfill Facility
Haywood County, Permit #4407-MSWLF-1993, Document ID No. 20287

Mr. Vail:

The Division of Waste Management, Solid Waste Section (Section) has completed a review of the document titled *Closure/Post-closure Plan, White Oak MSW Landfill, MSW Phases 1-3 (DIN 19446)*. The document was revised to incorporate all constructed MSW Phases. The document was received in the Asheville Regional Office on August 5, 2013.

Based on this review, the Section finds the revised Closure/Post-closure Plan satisfies the requirements of 15A NCAC 13B.1629. Therefore, the revised Closure/Post-closure Plan is now part of the approved plan for the facility and must be maintained on site. There are no permit conditions associated with this activity, so no permit modification will be required and no permit fee assessed. As a result, the revised Closure/Post-closure Plan will not be listed in the Permit to Operate until the next permitting activity. Any significant changes to the submitted plan will require approval by the Section prior to implementation.

If you should have any questions regarding this matter please contact me at (828) 296-4703, or by email at allen.gaither@ncdenr.gov.

Sincerely,

Allen Gaither
Environmental Engineer
