Re: Approval to Utilize the G&S Landfarm Soil Stockpile as Daily Cover at the Martin County C&D Landfill (Doc ID No. 19800)

Dear Mr. Bone,

In a letter dated May 6, 2013 (DIN 19799), you requested the advice of the Division of Waste Management concerning the possible use of soil within a stockpile at the G&S Landfarm owned by Mr. Freddie Griffin as daily cover material for the Martin County C&D Landfill. The Solid Waste Section (Section) along with the Underground Storage Tank Section collected and analyzed soil samples from the soil stockpile to determine if the soil was suitable as daily cover. After reviewing the analytical results from Pace Analytical, the Section approves your request to use the soil as daily cover material. Please note that one area of the soil stockpile is being delineated so that it will not be removed from the property at this time. The county should contact Mr. Freddie Griffin to address the logistics of moving the soil to the Martin County C&D Landfill.

If you have any questions or concerns, please don't hesitate to contact me at 919-707-8246 or via email michael.scott@ncdenr.gov.

Sincerely,

Michael Scott
Section Chief
Solid Waste Section
