Solid Waste Permit No. 60-13

North Mecklenburg Landfill

North Mecklenburg Landfill, Inc. (NML) has been in operation since 1988. In 1993, NML was upgraded to a Construction & Demolition (C&D) landfill, and is now the county's only C&D landfill. It is permitted to accept demolition materials, sheet rock, shingles, and other non-asbestos C&D materials.

To attain C&D status, NML met and surpassed many state regulations by making numerous improvements to its facility. These improvements translated into added convenience and practicality for all NML customers.

Active in the local home owners' association, NML makes continuous improvements, including landscaping and noise reduction, and is receptive to residents' concerns and suggestions.

To maintain favorable relationships with its neighbors and to continue offering convenient and affordable service, **NML customers are asked to adhere to the 35 m.p.h. speed limit on Holbrooks Road and to be respectful of area residents.**
