MEMORANDUM

To: File

From: Donna Wilson
Solid Waste Section

Date: September 17, 2007

Subject: Transfer Station at North Mecklenburg C&D Landfill on Holbrooks Road in Huntersville (Permit No. 6013)

On this date I talked with Joe Hack of Mecklenburg County (704-336-2831) about the Transfer Station permit issued to Griffin-Parker Enterprises/Griffin Brothers on July 25, 2005. He said the transfer station permit was issued as a stop gap measure because the C&D landfill was running out of room as they worked to get the next phase permitted.

I called Mike Griffin, 704-895-4506, also on this date. He said they operated the transfer station for a few months and took the waste to Highway 49 C&D landfill in Cabarrus County, until the C&D permit amendment was approved. They did not submit an annual report for this transfer station. He later stated that they operated it for a few weeks.

The permit was issued with permit number 6021T, which conflicts with another permit issued by the State for 6021.
