Cornelius, North Carolina 28031

Subject: Determination of Completeness & Technical Review  
Greenway Waste Solutions of Apex, LLC  
Wake County, Permit # 9230-CDLF-2014, Document ID 21109

Mr. Griffin:

The Division of Waste Management, Solid Waste Section (Section) has completed a review of the document titled *Greenway Waste Solutions of Apex, LLC Permit Renewal (DIN 20777)*. The document was submitted on your behalf by Civil & Environmental Consultants, Inc. and was received in the Asheville Regional Office on April 9, 2014.

The submittal has been reviewed for completeness in accordance with General Statute 130A-295.8(e). A determination of completeness means that the application includes all required components but does not mean the required components provide all of the information that is required for the Section to make a decision on the application. The permitting activity fee has been paid, and all the components required by 15A NCAC 13B.0535(b) have been submitted, so the application is deemed **complete**.

However, based on a review of the currently approved plans, the Section requires additional information or clarification in order to complete the Permit renewal. Please provide as response to the following items:

Operation Plan (DIN 16539)

1. The Site Plan drawing, Sheet C2, shows a 2.35 acre composting area on the northeast corner of the facility. However, there is no discussion of the composting activity within the Plan. Please update the Plan to include a discussion on the management of the composting activity to include, at a minimum, those operational requirements specified in Rule .1406.

If you should have any questions regarding this matter please contact me at (828) 296-4703, or by email at [allen.gaither@ncdenr.gov](mailto:allen.gaither@ncdenr.gov).

Sincerely,

Allen Gaither  
Environmental Engineer
