**RE: Wilkes County Dan Johnson Landfill, Permit No. 97-02  
Fourth Quarterly Gas Monitoring Results of 2013  
JOYCE Project No. 356.1301.12, Task No. 04**

Dear Ervin:

Attached to this letter is the landfill gas monitoring log from the October 7, 2013, fourth quarterly event at the Wilkes County Dan Johnson Landfill, Permit Number 97-02. During this event, Joyce Engineering (JOYCE) monitored three gas probes for the presence of landfill gas. Methane was detected above the lower explosive limit (LEL) in gas probe GP-2. A bar-hole probe for GP-2 (BH-2A) was used 50 ft. towards the boundary of the landfill in which no methane was detected. No methane was detected in any of the other gas probes during this monitoring event. Please place a copy of the monitoring results in the records for this facility. If we can provide any additional information, please call me or Larry Hinline at (336) 323-0092.

Sincerely,  
**JOYCE ENGINEERING**

Field Consultant

Attachments: Landfill Gas Monitoring Log

C: Kent Brandon, Solid Waste Director

**Notice:** This form and any information attached to it are "Public Records" as defined in NC General Statute 132-1. As such, these documents are available for inspection and examination by any person upon request (NC General Statute 132-6).

**Instructions:**

- Prepare one form for each individually monitored unit.
- Please type or print legibly.
- Attach a notification table with values that attain or exceed NC 2L groundwater standards or NC 2B surface water standards. The notification must include a preliminary analysis of the cause and significance of each value. (e.g. naturally occurring, off-site source, pre-existing condition, etc.).
- Attach a notification table of any groundwater or surface water values that equal or exceed the reporting limits.
- Attach a notification table of any methane gas values that attain or exceed explosive gas levels. This includes any structures on or nearby the facility (NCAC 13B .1629 (4)(a)(i)).
- Send the original signed and sealed form, any tables, and Electronic Data Deliverable to: Compliance Unit, NCDENR-DWM, Solid Waste Section, 1646 Mall Service Center, Raleigh, NC 27699-1646.

**Solid Waste Monitoring Data Submittal Information**

Name of entity submitting data (laboratory, consultant, facility owner):

Joyce Engineering

Contact for questions about data formatting. Include data preparer's name, telephone number and E-mail address:

Name: Larry Hinline, P.G.    Phone: (336) 323-0092  
 E-mail: lhinline@joyceengineering.com

Facility name:	Facility Address:	Facility Permit #	NC Landfill Rule: (.0500 or .1600)	Actual sampling dates (e.g., October 20-24, 2006)
Dan Johnson Landfill Wilkes County	Mailing Address: 9219 Elkin Highway Roaring River, NC 28669	97-02	.0500	October 7, 2013

**Environmental Status: (Check all that apply)**

- Initial/Background Monitoring   
  Detection Monitoring   
  Assessment Monitoring   
  Corrective Action

**Type of data submitted: (Check all that apply)**

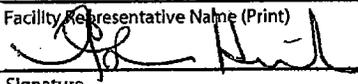

- Groundwater monitoring data from monitoring wells   
  Methane gas monitoring data  
 Groundwater monitoring data from private water supply wells   
  Corrective action data (specify) \_\_\_\_\_  
 Leachate monitoring data   
  Other(specify) \_\_\_\_\_  
 Surface water monitoring data

**Notification attached?**

- No. No groundwater or surface water standards were exceeded.  
 Yes, a notification of values exceeding a groundwater or surface water standard is attached. It includes a list of groundwater and surface water monitoring points, dates, analytical values, NC 2L groundwater standard, NC 2B surface water standard or NC Solid Waste GWPS and preliminary analysis of the cause and significance of any concentration.  
 Yes, a notification of values exceeding an explosive methane gas limit is attached. It includes the methane monitoring points, dates, sample values and explosive methane gas limits.

**Certification**

To the best of my knowledge, the information reported and statements made on this data submittal and attachments are true and correct. Furthermore, I have attached complete notification of any sampling values meeting or exceeding groundwater standards or explosive gas levels, and a preliminary analysis of the cause and significance of concentrations exceeding groundwater standards. I am aware that there are significant penalties for making any false statement, representation, or certification including the possibility of a fine and imprisonment.
