Subject: C&D Cap

Cheri,

In regards to our telephone conversation, we have augured into the cap of the closed C&D landfill and wherever we augured, there was adequate depth of soil for the cap. We have prepared a map showing the location of the augurs and will certify that the proper depth of soil for the cap was observed at each augur hole.

If you need anything else right now, just let me know.

Thanks,

D. Wayne Sullivan
