RE: LETTER OF APPROVAL
Project Name: NC-150 Smith Property
Location: NC 150 - Iredell County
Submitted By: Don Allen Surveying
Date Received: May 19, 1994
New Submittal: X Revision

Dear Mr. Smith:

This office has reviewed the subject erosion and sedimentation control plan. We find the plan to be acceptable and hereby issue this letter of approval.

Please be advised that Title 15 NCAC 4B .0017(a) requires that a copy of the approved erosion control plan be on file at the job site. Also, you should consider this letter to give the Notice required by G.S. 113A-61(d) of our right of periodic inspection to insure compliance with the approved plan.

North Carolina's Sedimentation Pollution Control Program is performance oriented, requiring protection of the natural resources and adjoining properties. If following the commencement of this project it is determined that the erosion and sedimentation control plan is inadequate to meet the requirements of the Sedimentation Pollution Control Act of 1973 (North Carolina General Statute 113A-51 thru 66), this office may require revisions to the plan and implementation of the revisions to insure compliance with the Act.

Page Two

"The land-disturbing activity described in this plan may be subject to the approval of other Local, State or Federal agencies. This could include the Division of Environmental Management under storm water or water quality regulations, the U.S. Army Corps of Engineers under Article 404 jurisdiction, county, city or town agencies under other local ordinances, or other approvals that may be required. This approval cannot supersede any other permit or approval."

Please note that this approval is based in part on the accuracy of the information provided in the Financial Responsibility Form which you have provided. You are requested to file an amended form if there is any change in the information included on the form. In addition, it would be helpful if you notify this office of the proposed starting date for this project.

Your cooperation is appreciated, and we look forward to working with you on this project.

Sincerely,

Jerry W. Cook
Regional Engineer
