Huntersville - Ford FILE

**NORTH CAROLINA DEPARTMENT OF
ENVIRONMENT AND NATURAL RESOURCES**

DIVISION OF WASTE MANAGEMENT

October 7, 1998

**JAMES B. HUNT JR.
GOVERNOR**

Mr. William H. Lindsay, Project Manager
Duke Energy
Coal Ash Management Group
400 South Tryon Street
P.O. Box 1002
Charlotte, NC 28201-1002

**WAYNE MCDEVITT
SECRETARY**

Reference: August 18, 1998 letter from Mr. William H. Lindsay of Duke Energy to Mr. James F. Haun, President of Sun Star Inc. and landowner of Huntersville - Ford coal ash structural fill site.

**WILLIAM L. MEYER
DIRECTOR**

Dear Mr.Lindsay:

In the reference letter, you reminded Mr. Haun that he agreed in the contract between he and Duke Energy that he would provide evidence to Duke Energy of compliance with NC DENR Solid Waste Management Rules 15A NCAC 13B Rule .1706, entitled "Closure of Structural Fill Facilities" and Rule .1707, entitled "Recordation of Structural Fill Facilities". Also, your letter states that Duke <Energy>has complied with all other rules of Section .1700.

Your letter furnishes information that a total of 75,137 tons of ash were placed on the site. This total was stated to be composed of 66,157 tons of silo ash and 8,980 tons of pond ash. The Division of Waste Management has a question concerning placement of these coal combustion by-products (CCBPs) on the Huntersville - Ford structural fill site. We would appreciate your informing us if any of these by-products were placed within twenty five feet of any property boundary which is addressed in Rule .1704(a)(6). Please mail your response to me at The Division of Waste Management; 401 Oberlin Road, Suite 150; Raleigh, NC 27605. Thank you.

Sincerely,

William R. Hocutt
