 Ray Williams; NCDENR-Solid Waste

STATUS OF PERMIT:

Active: Landclearing and Inert Debris (LCID) Landfill Notification

PURPOSE OF SITE VISIT:

Comprehensive Facility Compliance Inspection

STATUS OF PAST NOTED VIOLATIONS:

None applicable

OBSERVED VIOLATIONS:

No violations were observed during this Facility Compliance Inspection; *please see* ADDITIONAL COMMENTS section below.

ADDITIONAL COMMENTS:

- 1) This Facility is a Land-Clearing and Inert Debris Landfill Notification.
- 2) This facility is recorded with the Carteret County Register of Deeds at: Book #1165; Page #354.
- 3) This Facility is permitted to receive for disposal:
 - a. Land Clearing Waste: stumps, trees, limbs, brush, grass, and other naturally occurring vegetative materials generated solely from land clearing activities.
 - b. Yard Trash: brush, grass, tree limbs, and similar vegetative materials resulting from landscaping and yard maintenance.
 - c. Inert Debris and Untreated Wood: concrete, brick, concrete block, uncontaminated soil, gravel and rock, untreated and unpainted wood; and
 - d. Used Asphalt: used asphalt or asphalt mixed with dirt, sand, gravel, rock, and concrete.
- 4) The disposal area for this Facility may not exceed 2 acres in total size.
- 5) This Facility is monitored by a 24 hour security camera at the Facility entrance.
- 6) This Facility is secured by a locked gate at the Facility entrance and has controlled access for safety.
- 7) Proper signage is posted at the Facility entrance stating the Facility emergency contact number and types of waste accepted.

- 8) The access road to the Facility is of all-weather construction and is being managed properly at this time.
- 9) The waste type being disposed is LCID waste only; no unacceptable waste streams were noted during this Facility Compliance Inspection.

- 10) The active working face needs to be more efficiently compacted and maintained in a smaller area. *Please compact all waste as densely as practical and maintain the working face in as compact an area as is feasible.
- 11) Soil has been stockpiled in an area adjacent to the active working area for use as cover.
- 12) *Please ensure that all waste is covered monthly or when the active working faces reaches 1 acre in size, whichever occurs first.
- 13) The outside slopes appear to have a slope greater than 3:1 and are lacking sufficient cover. *Please compact, cover, and graded all outside slopes at a slope not greater than 3:1. After grading, all slopes should be seeded and mulched to establish a groundcover suitable to prevent erosion of the landfill cap system.

- 14) The perimeter of the landfill has not been staked to identify the landfill footprint. *Please erect markers delineating the landfill waste footprint boundaries and all required buffers as listed in 15A NCAC 13B .0564 (9) on your LCID landfill notification form.
- 15) *Corrective actions are required as a result of this Facility Compliance Inspection.

Please contact me if you have any questions or concerns regarding this Facility Compliance Inspection Report.
