- 9) The perimeter road has been cleared to provide access around the toe of the landfill.
- 10) Soil has been stockpiled in the cleared area adjacent to the western sideslope of the landfill for use as cover.
- 11) The landfill working face has been covered and graded and no exposed waste was observed during this Facility Compliance Inspection.
- 12) The landfill side slopes have been covered and graded to promote positive drainage of surface waters away from the landfill.
- 13) The landfill has been seeded to establish a groundcover suitable to prevent erosion of the landfill cap system, however, many areas were observed as having insufficient cover. \*Please continue working to establish a groundcover suitable to prevent erosion of your landfill cap system over all Facility sideslopes.

- 14) \*Continued corrective actions are needed as a result of this Facility Compliance Inspection.

Please contact me if you have any questions or concerns regarding this Facility Compliance Inspection Report.
